Dear Dr. Ceppellini:

Josh has asked me to answer your letter of 12 June to him.

There certainly is a great deal of common interests between your lab and our own and if it were at all possible I would like very much to have one of your people work with me. Unfortunately we are still awaiting our new and enlarged quarters and cannot reasonably hope to move until Fall 1965. We are considerably overcrowded now and could not in all justice take on any one else until at least 1966.

We all hope you will be able to visit here this winter, I remember with great pleasure talking with you at Gatlinburg.

With best regards.

Sincerely,

Leonard A. Herzenberg
